MOHD ASIF S SIDDIQUI

Full Stack Developer (MERN) • React.js • Node.js • Front-End Engineering • UI/UX

+91 89577 77705 | mohammadasifshahid@gmail.com | Prayagraj, Uttar Pradesh, India — open to relocating to Pune (Hybrid) | linkedin.com/in/asif-siddiqui-5000a7105

PROFESSIONAL SUMMARY

Full Stack Software Developer with 3+ years of professional experience building responsive, scalable web applications on the **MERN stack (MongoDB, Express.js, React.js, Node.js)**, backed by 8+ years in front-end development, UI/UX, and digital product delivery. Specialist in **React.js** — reusable component architecture, hooks, state management, and performance-minded, pixel-perfect interfaces — paired with **RESTful API** development and **MongoDB** data modelling. Experienced delivering for international clients across **healthcare, fintech, e-commerce, and Hollywood entertainment**, working in **Agile/Scrum** teams with **Git**-based workflows, code reviews, and full ownership of features from requirements to release. Combines engineering skills with a strong **Figma-to-code** design sensibility, **Tailwind CSS**, and accessibility (WCAG 2.1 AA) to ship polished products and cut hand-off friction.

TECHNICAL SKILLS

Front-End: **React.js**, JavaScript (ES6+), Hooks, Context API / state management, component libraries, HTML5, CSS3, **Tailwind CSS**, responsive and cross-browser design, accessibility (WCAG 2.1 AA)

Back-End: **Node.js**, **Express.js**, **RESTful APIs**, authentication and middleware, third-party API integration

Database: **MongoDB** — schema design, CRUD operations, aggregation basics

Full Stack (MERN): End-to-end feature development across **MongoDB, Express.js, React.js, and Node.js**; client–server integration; deployment-ready builds

Tools & Practices: **Git / GitHub**, Postman, VS Code, Agile/Scrum, sprint planning, code reviews, A/B testing, usability testing, AI-assisted prototyping

UI/UX & Design: Figma (Dev Mode), Adobe XD, Zeplin, design systems, wireframing and prototyping, Photoshop, Illustrator, Sketch

Creative & Motion (supporting): After Effects, Premiere Pro, Canva Pro, animated graphics, brand identity and marketing collateral

PROFESSIONAL EXPERIENCE

Sr. Software Developer — MERN Stack / React.js

Razo Services, Prayagraj | *June 2023 – Present*

- Develop and maintain full-stack web applications on the **MERN stack (MongoDB, Express.js, React.js, Node.js)** for client-facing products, owning features end to end from requirements through deployment.
- Build reusable, responsive **React.js** components with **Hooks** and **Tailwind CSS**, and maintain a shared **component library** adopted across 5+ active projects — keeping UI consistent and cutting turnaround on repeat requests.
- Design and integrate **RESTful APIs** using **Node.js and Express.js**, with **MongoDB** data models, connecting the React front end to back-end services and third-party APIs.
- Translate client briefs and **Figma** designs into **pixel-perfect, cross-browser** interfaces, partnering daily with designers and developers in **Agile/Scrum** sprints with **Git** version control and peer code reviews.
- Run usability reviews and **A/B tests**; applied findings to lift engagement metrics ~25% on a flagship product.
- Use AI tools (Adobe Firefly, Midjourney) to accelerate prototyping and generate concept directions for client pitches.

Sr. Executive — Multimedia & Visual Design (Front-End & UI)

Virtual Employee, Noida | *Jan 2022 – May 2023*

- Delivered digital work for **Hollywood entertainment clients** as part of an international client portfolio, translating creative direction into polished web, UI, and campaign assets to demanding brand and quality standards.
- Supported **10+ client accounts** across **healthcare, fintech, e-commerce, and entertainment**, producing responsive landing pages, web and mobile UI, and digital marketing assets under strict brand compliance.
- Designed **responsive web and mobile UI** in **Figma and Adobe XD**, and handed off to developers through **Zeplin / Figma Dev Mode** for accurate front-end implementation.
- Created complete **brand identity packages** and design systems (logos, colour palettes, typography, usage guidelines) for domestic and international clients, applied consistently across every downstream asset.
- Adapted master designs across multiple devices and channel specifications, using a **QA checklist** to catch spec and brand errors before delivery.
- Extended campaigns into motion — animated graphics and short-form video — for client social channels.

Sr. Graphic Designer & Front-End Designer
Oseen Outdoor Solutions Pvt Ltd, Allahabad | *June 2017 – Jan 2022*

- Led front-end and visual design for **20+ client websites and event microsites**, including corporate portals and **e-commerce stores**, pairing digital assets with matching print campaigns.
- Built **responsive HTML5/CSS3 templates** from approved mockups, working alongside **React and Node.js** developers — the foundation for my move into full-stack development.
- Established internal design standards and **reusable template libraries** that reduced new-project setup time by 40%.
- Designed event and large-format materials end to end — hoardings, banners, signage, vehicle wraps — owning production, vendor specs, and print quality.
- Mentored two junior designers on Illustrator and Photoshop technique, design fundamentals, and client presentation.

SELECTED PROJECTS

SaaS Dashboard Redesign & Design System — *React.js, Tailwind CSS, Figma*

- Rebuilt a multi-tenant analytics dashboard in **React.js** with new information architecture and a reusable **component library**; task-completion time dropped 35% in user testing.

Healthcare Platform — Patient-Facing Mobile Experience — *Figma, Adobe XD*

- Designed a 40+ screen patient app with an **accessibility-first** approach (**WCAG 2.1 AA**), covering onboarding, appointment booking, and health dashboards.

Brand Identity & Marketing Collateral Launch — Retail Client — *Illustrator, Photoshop, InDesign*

- Delivered logo, brand guidelines, packaging, and a full collateral suite as one coordinated launch system.

EDUCATION

B.Tech, Mechanical Engineering — SIET, Allahabad | 2017

Class XII (Mathematics) & Class X (Science) — Bishop Johnson School (ISC), Allahabad

PROFESSIONAL DEVELOPMENT

- Ongoing study of modern **React.js, JavaScript, and Node.js** practices alongside UX research — Interaction Design Foundation, Nielsen Norman Group, Awwwards.
- Actively evaluating **AI-assisted development** and automation tools to improve engineering efficiency, reusable systems, and streamlined workflows.
- Participant, AUTO FACTORY 2015 — UCER, Allahabad (cross-disciplinary innovation).
